Re: Compliance Evaluation Inspection  
EPA I.D. No.: MIR 000 016 055

Dear Mr. Frost:

On August 18, 2011 representatives of the U.S. Environmental Protection Agency and the Michigan Department of Environmental Quality (MDEQ) inspected Environmental Geo Technologies (EGT) located at 28470 Citrin Drive, Romulus, Michigan. The purpose of the inspection was to evaluate EGT's compliance with the current Hazardous Waste Storage and Treatment License and certain requirements of the Resource Conservation and Recovery Act (RCRA); specifically, those regulations related to the generation and treatment, storage, and disposal of hazardous waste. Enclosed please find a copy of the inspection report.

As of this writing, based upon information available to EPA and MDEQ, our review of the inspection has not resulted in the detection of violations of any of the specific RCRA requirements under evaluation. This determination does not limit the applicability of the requirements evaluated, other RCRA regulations, or regulations under other environmental statutes. EPA and MDEQ will continue to evaluate EGT in the future.

If you have any questions or concerns regarding this matter, please contact Michael Cunningham, of my staff, at (312) 886-4464.

Sincerely,

A handwritten signature in black ink that reads "Paul Little".

Paul Little  
Acting Chief, RCRA Branch  
Land and Chemicals Division

Enclosure

cc: James Day, MDEQ, 4000 E. 12th, Romulus, MI 48174
