

Environmental Geo-Technologies, LLC

MIR 000 016 005

Document Repository Plan

In accordance with Part II, Condition D of Environmental Geo-Technologies, LLC's ("EGT") Underground Injection Control Permits (the "UIC Permits"), EGT shall make copies of all Required Reports under the UIC Permits publicly available in a Document Repository maintained by EGT in accordance with this Plan.

A. Required Reports and Documents

Unless EGT claims business confidentiality under Part I, Condition D of the UIC Permits, EGT will maintain the following Required Reports and documentation in the Document Repository:

1. Monthly Reports, as required under Part II, Condition D.1.
2. Annual Reports, as required under Part II, Condition D.2.
3. Reports regarding demonstrations of mechanical integrity, well workovers, and other tests required by the permit, as required under Part II, Condition D.3. This includes reports required under Parts I.E.12, II.B.3, II.B.4, II.C.6, and Attachments A and E.
4. Proposed changes to plans required under the UIC Permits and correspondence with EPA regarding those changes.
5. EPA inspection reports received by EGT and correspondence with EPA regarding those inspection reports.

B. Confidential Business Information

If a Required Report contains confidential business information, EGT may use reasonable efforts to redact that information from the Required Report before placing it in the Document Repository. If the confidential business information cannot be redacted using reasonable efforts, EGT may exclude that Required Report from the Document Repository.

C. Document Repository Locations

Copies of the Required Reports will be maintained at the following locations:

1. Print hard-copies and/or electronic copies will be maintained at EGT's main offices at 28470 Citrin Drive, Romulus, MI 48174. Required Reports will be available to the public for review at this location by appointment

during normal business hours. Persons visiting EGT's facility will be subject to EGT's security and safety procedures.

2. Electronic copies will be posted in PDF or other commonly-used formats to EGT's website (currently at www.envgeotech.com).
3. Print hard-copies will be delivered to the Romulus Public Library located at 11121 Wayne Rd., Romulus, MI 48174. Prior to the initial delivery, EGT will contact Library staff to inform them of this Plan. In the event that the Library is, for any reason, unable or unwilling to maintain the Document Repository, or to make the Required Reports available to the public, EGT may cease delivering the Required Reports to the Library and maintain those reports only at the locations identified in Paragraphs 1 and 2, above.

D. Frequency of Updating Document Repository

EGT shall update the Document Repository at each location identified in Section C of this Plan at least once each calendar quarter. Each Required Report shall be maintained in the Document Repository for at least five (5) years after its initial placement into the Document Repository.
