Re: RIES Monthly Report

Dear Mr. Batka:

Republic Industrial and Energy Solutions, LLC (RIES) hereby submits the Ninety First Monthly Report ("MR") in conformance with the requirements of its two EPA UIC permits (#s MI-163-1W-C010 & MI-163-1W-C011). RIES is providing all the attached information in the same sequence as required by both subject permits, i.e. Part II. D.1 (a-i), Part III, Attachment A, and Part III, Attachment E.G.2 & E.I.

A short write up is placed in each of sections Well 1, and Well 2 to explain the missing circle charts for the month of June. RIES did not accept F039 waste in June of 2021 so analyses as stated on Page A-3 of 3 of RIES's EPA two UIC permits are not required to be submitted as part of this MR. May monthly volumes were wrongly reported on the previous monthly report. The discrepancy was found by our engineering team, and the correction for May total volumes injected is corrected in this report. The corrected volumes are used for this month's total volume calculations.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my supervision and interaction with the persons who manage and operate the system, and those persons responsible for the collection of the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

We trust that you find this report satisfactory, however, if you have any questions or comments, please feel free to contact us.

Sincerely,

John K. Frost

AVERAGE INJECTION RATE

CORRECTED RATE INJECTION SHEET INSERTED

In this section find the corrected injection rate sheet for the month of May. The volumes reported for May were 1,831,719 gallons for Well 1, and 1,711,387 gallons for Well 2. The corrected volumes for the month of May are 2,192,212 gallons for Well 1, and 1,676,236 gallons for Well 2. These corrected volumes were used for the total volume calculations in this month's report.

WELL 1 DATA

Circle Charts Well 1

Circle chart recorder #1 is now broken not able to power up. Both circle chart #1 and #2 are being replaced by Utilities Instrumentation Services. The current climate for ordering and delivery of many materials has been an ongoing issue. These circle chart recorders have been on order being delivered for about 5 months now. Continuous monitoring data is being recorded and backed up on a hard drive system. Upon request from the EPA the data can be accessed and provided for any reporting month. Otherwise, the data recorded every 10 seconds throughout the month would take 259,000 lines of data and more than 2,000 extra pages to be added to this report.

WELL 2 DATA

Circle Charts Well 2

Circle chart recorder is no longer functional and is being replaced. Continuous monitoring data is being recorded and backed up on a hard drive system. Upon request from the EPA the data can be accessed and provided for any reporting month. Otherwise, it would take 259,000 lines of data and more than 2,000 extra pages to be added to this report.

RE: Trace Project 21E0152
Client Project SURTEC-650

Dear Mr. Atkins:

Enclosed are your analytical results. The results of this report relate only to the samples listed in the body of this report.

All reports were examined through Trace's validation process to ensure that requirements for quality and completeness were satisfied. All reported analytical results were obtained in accordance with the methods referenced on the reports. Every practical effort was made to meet the reporting limit specifications for this work, however, some results may have raised reporting limits to correct for percent solids.

For clients that require NELAP Accreditation, Trace certifies that these test results meet all requirements of the NELAP Standard, except for those analytes with a "N" notation. These analytes have not been evaluated by NELAP at Trace's discretion and will not be reported unless requested by client.

If you have questions concerning this report, please contact me at 231.773.5998 or by email at tbrewer@trace-labs.com.

Sincerely,

A handwritten signature in black ink, appearing to read "Timothy W. Brewer".
